

# BEDGEN 40<sup>®</sup> ST PLUS

BROAD-SPECTRUM MYCOTOXIN BINDER WITH LOCAL AND SYSTEMIC EFFECTS

A premix of additives that improves feed conversion, prevents mycotoxicosis thanks to its adsorption capacity, with hepatoprotective and detoxifying effects.

## BENEFITS

- Enhances production parameters.
- Stable against thermal processes, such as pelletizing.
- Low inclusion, making more space in the formulation.
- Formulation based on the broad spectrum of action.
- Completely natural active ingredients.

## BEDGEN 40® ST PLUS

### \*DOSE

Administer orally, mixing with feed.

It is advisable to incorporate from 0.5 kg to 1.5 kg per tonne of feed, although the dose may vary depending on the target species, and is subject to the attending professional's criteria.
