

# BEDGEN 40<sup>®</sup> AQUA

GREATER PRODUCTION ADVANTAGE

- Greater nutrient absorption.
- Greater toxin removal.
- Greater intestinal integrity.
- Greater protection against diseases.

# BEDGEN 40® AQUA

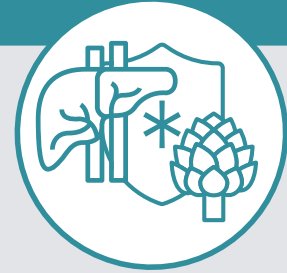

Indicated to increase the productivity of fish with high-energy diets and/or subjected to stressful situations caused by handling or viral/bacterial infections.

## BENEFITS

### GREATER NUTRIENT ABSORPTION

- Increases bile formation and secretion
- Maintains gut health
- Improves the FCR (feed conversion ratio)

### IMMUNOMODULATION

- Boosts the first line of defense of fish
- Stimulates the innate immune response
- Reduces mortality

### ENHANCED LIVER HEALTH

- Contributes to proper metabolic activity
- Boosts toxin removal
- Increases liver tissue regeneration

**SPECIES:** Fish (Salmon, European Sea Bass, Gilthead Bream, Tilapia, Trout), Crustaceans.

## ADMINISTRATION

Orally, mixing with feed.

### Recommended dose

500g - 1kg per tonne of feed, or at the discretion of the nutritionist in charge of feed preparation.

## BEDGEN 40® AQUA

### PRESENTATION

25 kg
