

ADDITIVE PREMIX  

BEDGEN 40[®] DETOX

GROWTH-PROMOTING NATURAL EXTRACTS

An optimal combination of natural plant extracts, betaine, and a toxin binder that helps maximize animal production potential.

BENEFITS

- Improves pigment fixation in tissues.
- Improves the hatching rate and egg quality.

- Improves colostrum and milk quality: Increases milk solids up to 25%.
- Helps control ulcers and gastric lesions.

PROPERTIES

- Increases bile formation up to 60%.
- Boosts toxin removal.
- Improves technical indicators (birth and weaning weight, FCR, mortality).
- Increases absorption of fat-soluble vitamins (A, D, E, and K).
